TO: CHR Records Room

MICROFILMED

FROM: Jan Lieben, M.D.

NOV 5 1975

SUBJECT: Contacts

CHR RECORDS

4/1/75:

- (1) Re Dr. William Allison. Reviewed the American Medical Association Directory for Dr. Allison in Boulder, Colorado. Found no Dr. Allison listed there nor any other Dr. William Allison. Will check back with Nellie McGee, the source of the information.

4/3/75:

- (2) Called Mrs. Nellie McGee in Catlin, Illinois to learn whether she could help in location of Dr. Allison. No, she does not know anybody who could help. She did, however, remember that Dr. Allison, Sr. died in Danville, Illinois after World War I.

4/7/75:

- (3) Re sisters. Called Mrs. in
"Yes, I talked to my brother but he would not go along with it." Case completed - negative.

4/8/75:

- (4) Made appointment to visit in Santa Rose, Calif. on
April 12, 1975.

4/9/75:

- (5) Called re "Have been too busy. Call me back
in a couple of months."

4/12/75:

- (6) Re (plutonium case). Visited his daughter,
, on , 10 miles west of Santa Rosa, Calif.
On instruction of M. M. Shanahan, I informed her that her father had been given plutonium injections. The information did not seem to register too well. The records of her father, etc. are kept at Santa Rose Hospital -- Dr. Balding is still around. She seemed much more interested in telling me of the cure she had received from Transcendental Meditation for her arthritis than about her father's plutonium injections. She will probably cooperate with our continued efforts.
